ABOUT ME

I am a creative and motivated individual with a diverse skill set in front-end development, UI/UX design, web development, graphic design, video editing, and machine learning. I enjoy blending technology and design to build user-friendly digital experiences and intelligent systems. With a passion for continuous learning and a strong problem-solving mindset, I aim to contribute to innovative and impactful projects in the tech industry.

EDUCATION

B.A (hons) Information Technology - 2022 - Present

University of Sri Jayewardenepura

Advanced Level Exam - 2020

Mr/Deiyandara National Collage - Deiyandara

Ordinary Level Exam - 2017

Mr/Athapaththukanda K.V - Athapaththukanda

PROFESIONAL QUALIFICATIONS

Successfully Completed the Diploma in Computer Office Professional Course

South Lanka Academy for Tertiary Educational and Leadership - Sri Lanka

Sun Vision English Academy - Sri Lanka

Founder of PixelWave Graphic Design

TECHNICAL SKILLS

- | | | |
|--|--|--|
| • Front-End Development
(React Native, Expo) | • UI/UX Design
(Figma) | • Video Editing & Content Creation
(CapCut) |
| • Web Development
(HTML, CSS, JavaScript, WordPress) | • Graphic Design
(Photoshop, Illustrator, Canva) | • Machine Learning & Data Analytics
(Python) |

SHOFT SKILLS

- | | |
|--|--|
| • Leadership & Teamwork
(Served as Head Prefect at Athapaththukanda K.V in 2017) | • Critical Thinking & Problem-Solving |
| • Creativity | |

PROJECTS

- **Cinnamon Master (UI/UX Design)**

Designed a mobile app interface for a cinnamon cultivation and trade support system, with Sinhala localization and farmer-friendly user experience

- **Cinnamon Master (Mobile App)**

Developed a full-stack mobile app to support cinnamon export knowledge and facilitate trade for small-scale producers in Sri Lanka

- **Portfolio (Web Site)**

Developed a portfolio website using HTML, CSS and JavaScript

- **WeatherSense (Mobile App)**

Developed a real-time weather forecast app providing temperature, weather conditions, and location-based search using React Native (Expo) and OpenWeatherMap API

- **Movie Explorer Web App (UI/UX Design)**

Presenting a Figma-based UI/UX design for a modern Movie Explorer web application

- **Ella Flower Garden Resort (UI/UX Design)**

Designed a mobile app interface for a hotel management system

- **FHSS Student Portal APP (UI/UX Design)**

Created a Figma prototype for a student portal as a university project

- **Machine Learning Diabetes Prediction Model**

Built an AI-based model for diabetes risk prediction

- **Power BI Dashboard Interface**

Designed an interactive Power BI dashboard for data visualization and analytics

- **Stock Prediction Web App**

Built a real-time stock prediction and classification web app using Python (Streamlit) and deep learning models (MLP, RNN, and LSTM), with real-time data fetched from Yahoo Finance
