අධ්‍යයන ක්ෂේත්‍රය: Web development, Database management, Programming, Graphic design
හැඳින්වීම/අධ්‍යයන පසුබිම: (මෙම අධ්‍යයනය සිදු කළ යුතු වන්නේ කුමක් නිසා ද?) Introduction/Background of the Study: (Why does this study need to be conducted?)
This study aims to create a web platform that serves as a comprehensive resource for individuals and businesses involved in the export of crops(Tea, Cinnamon, Coconut). The platform will provide detailed information on various crops, including their economic importance, growth conditions, market trends, and regulatory requirements for international trade. With the increasing globalization of agricultural markets, there is a growing need for centralized and accessible information on crop trading to facilitate better decision-making and to enhance market opportunities for stakeholders

පර්යේෂණ ගැටළුව/අධ්‍යයන ගැටළුව:

The Research Problem/Problem of the Study:

Despite the global nature of crop trading, there is currently a lack of accessible, centralized platforms that provide both educational content about export crops and direct market access for stakeholders. This gap can lead to inefficiencies in trade, lack of awareness about crop standards and requirements, and reduced opportunities for emerging markets to access global supply chains.

අධ්‍යයනයේ අරමුණු: (මෙම අධ්‍යයනය කුළින් ළඟා කරගැනීමට අපේක්ෂිත අරමුණු කවරේ ද?)

Objectives of the Study: *(What does this study wish to achieve?)*

1. To develop a web platform that offers comprehensive information about export crops (Tea, Cinnamon, Coconut).
2. To create a marketplace feature that connects buyers and sellers, facilitating crop trading.
3. To incorporate multimedia elements (photos and videos) to enhance understanding and engagement.
4. To provide updated content about international crop trading regulations and market trends.

Significance of the Study: *(How is this study useful?)*

This study is significant as it addresses the information gap in the global agricultural trade market, particularly for crops. By providing a centralized web platform, it will enable farmers, traders, and businesses to access critical information, connect with market players, and participate in international trade more effectively. It will also help promote transparency and competitiveness in the crop trading market

අධ්‍යයන ක්‍රමවේදය: (ඔබ මෙම අධ්‍යයනය සිදු කරන්නේ කෙසේ ද?)
